BUNDLE!

Save on Labor

Patented XT Cut & Clamp

Automatically captures the stretch film and cuts it at the end of the wrap cycle.

- Fully Mechanical
Requires no air or hot wire.
- Save two minutes per load
Keep your driver on the forklift and eliminate the on and off to cut and attach film.

Annual Labor Savings of over \$10,000 using XT Cut & Clamp!

2 Minutes per Load

Eliminate Damage

Three ways the QL400XT eliminates damage:

1. Pallet Grip

"Locks" your load to the pallet, preventing the products from sliding during transit.

Without Pallet Grip

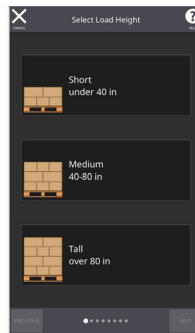

With Pallet Grip

2. Load Guardian

Creates
and saves profiles

Maintains
profile standards automatically

Delivers
the right amount of containment
force, every time.

3. Power Roller Stretch Plus

Power Roller Stretch Plus gives you better corner compensation to keep your products from crushing.

Consider adding even more productivity saving options:
